

Looking to give back to the Community of El Mirage?

We are always looking for new volunteers too!

Neighbors Helping Neighbors!

In life, things change. Sometimes we find ourselves needing some extra help we didn't plan for. The purpose of this program is to provide assistance to home owners or occupants of residential properties. Our focus are residents who are elderly, disabled, or experiencing a financial constraint making it difficult to maintain landscape, unable to afford paint and maintain aging, blighted building exteriors. We offer landscape maintenance and property improvements by the use of volunteer labor and materials.
