El Mirage Achieves Class 2/2x Public Protection Classification

[El Mirage, AZ (03/05/18)] – The Public Protection Classification (PPC) rating for the City of El Mirage was recently upgraded from a three to a two. A lower PPC rating demonstrates that a community has exemplary fire protection. This will have a positive effect on residential and commercial insurance rates, community reputation and quality of life.

This is great news for the City, its residents and business partners! Interim Fire Chief Chris Richardson stated, “This upgraded rating is a direct reflection of the Council, Administration and Staff commitment to improve and ensure the safety of our City.”
